DENSO Philosophy

The "DENSO Philosophy" guides our corporate actions, ensuring that we will continue to be a corporation that is trusted by people around the world.

Our Mission

Contributing to a better world by creating value together with a vision for the future

Our Management Principles

- 1 Customer satisfaction through quality products and services
- 2 Global growth through anticipation of change
- 3 Environmental preservation and harmony with society
- 4 Corporate vitality respect for individuality

Our Individual Spirit

- 1 To be creative in thought and steady in action
- 2 To be cooperative and pioneering
- 3 To be trustworthy by improving ourselves

As a global manufacturer of automotive parts, DENSO is expanding its business operations around the world. Our DENSO employees are working in many countries and regions and working to supply products that meet the needs of customers worldwide.

Global Tier 1

DENSO supplies a wide range of products and systems as a Tier 1* supplier trusted by the world's automobile manufacturers.

*Tier 1: A primary supplier that supplies products directly to an automobile manufacturer.

World's No.2

DENSO's automotive parts are used in vehicles worldwide.

The World Skills Competition 63 awards

DENSO puts great effort into the training of the skilled workers who bring our technology to life in our products.

R&D investment 500billion yen

Innovation at DENSO is driven by our passion for development.

Worldwide sites
211

Global work force of
170,000

Environmental Management
ENERGY 1/2 CLEAN x 2 GREEN x 2

DENSO uses its global network of research, production and sales sites to supply products to customers throughout the world.

We are helping to build a sustainable society through our efforts to minimize our environmental footprint.

Diesel Fuel Filter

Basic Function

Diesel Fuel Filter, or commonly known as DFF, filters dust and water from diesel fuel.

Diesel engine components like pump or injector is getting more precise especially for Common Rail System. These components are designed and manufactured in a couple of micrometers of tolerance to accurately work under extreme high pressure.

In such system, filtering dust and water in fuel is quite critical. Even small dust can lead to damage for these components. Cost to repair the system is very expensive due to precise components.

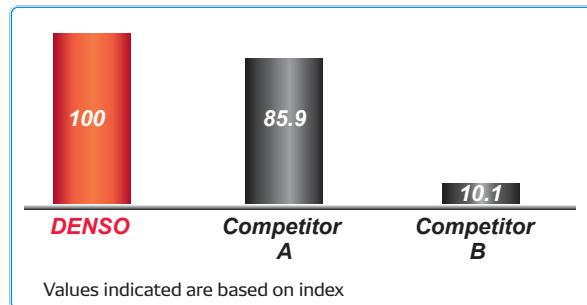

Diesel Fuel Filter

Comparison

1 Filtration Efficiency (@5μm)

As seen from graph, at filtration efficiency of 5μm, DENSO filters more than Competitors A and B. This means that you can be assured that even small particle of dust can be filtered by DENSO DFF. This difference means huge to protect your CRS components since these are made with tight tolerance of few μm.

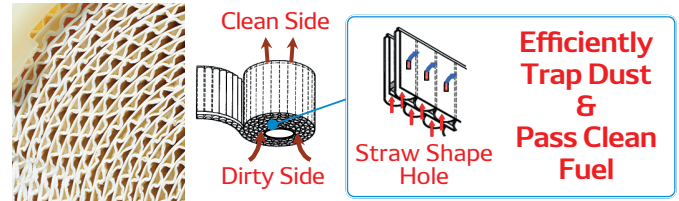

*For reference, 5μm is 5% to 10% of hair diameter

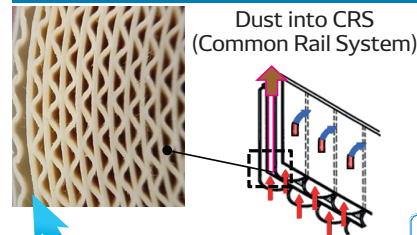

Comparison

Type: DENSO Honeycomb

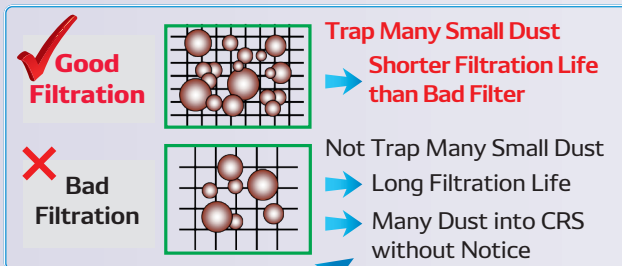

Type: Imitation Honeycomb

Type: Spiral

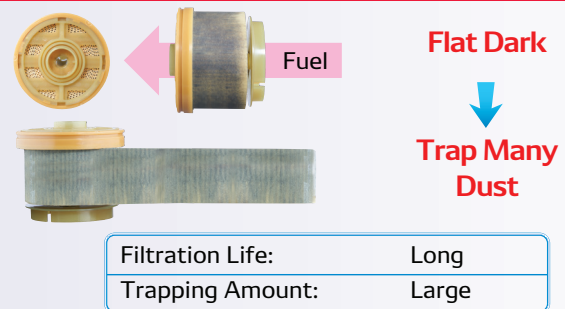

2 Filtration Life / Trapping Amount

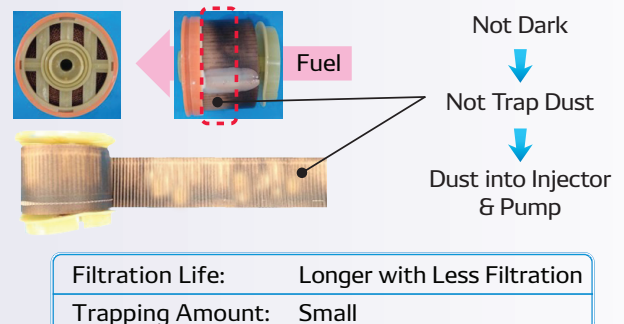

Driver can notice Filter Clogging with Meter

Comparison at Mileage 20,000km

DENSO

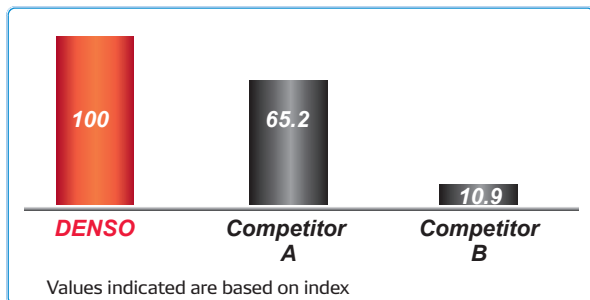

Imitation Aftermarket

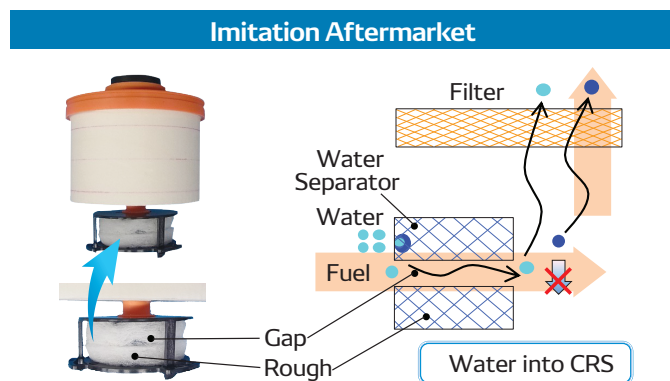

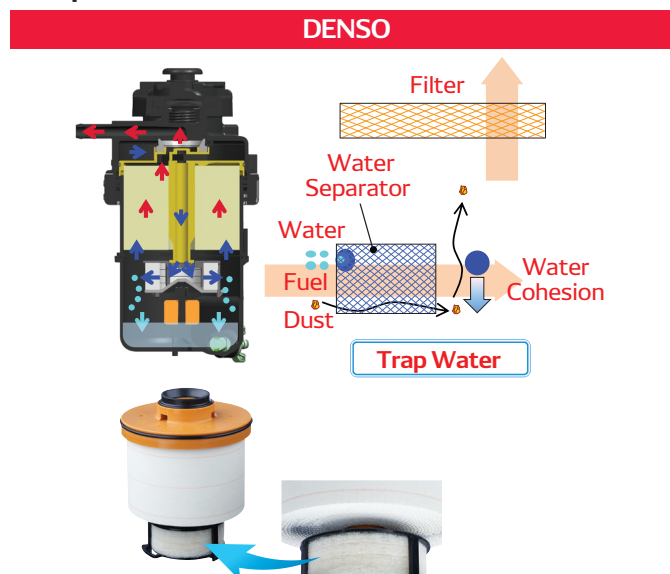

Comparison

3 Water Separation Efficiency

As seen from graph, water separation efficiency for DENSO is better than Competitors A and B. This means that with DENSO DFF, you will have lesser chance of water getting into your fuel tank, thereby lesser chance of supply pump defect due to rust.

Comparison
